# Materials

## Wood Products

- 1 Plywood , 5'x5'x1/2"

## Hardware & Supplies

- 1 Box Of Kreg Pocket Hole Screws (See Tools List)
- 1 Golden Oak Stain

# Cut List & Parts

- 1 Plywood , 18"X40"x1/2"
- 2 Plywood , 2"X40"x1/2"
- 13 Plywood , 17"X2"x1/2"

# Directions

1

## Step one

Cut your 1/2" material down to 18X40 inches.

2

## Step two

Make horizontal lines every 3" starting 2" from the top until you've made 12 lines. Then make vertical intersecting lines every 2".

**3****Step three**

Drill 1 3/8" holes where your vertical and horizontal lines intersect.

**4****Step four**

Cutout and then pocket hole 2"X40" body pieces to the back of your storage.

**5****Step five**

Cutout and then pocket hole 2"x17" shelf pieces to the back of your storage.

**6****Step six**

Sand holes and face of storage thoroughly.

**7****Step seven**

Cutout and attach 2"x2" pieces to the face of your storage. One with an 1 1/5" hole in it.

**8****Step eight**

Cut a 2" piece of 3/4" material in half at a 45 degree angle. Mount one piece into your storage and one piece onto the wall so that they match fit each other and the one on the wall holds the storage up.

**9****Step nine**

Hang your storage on the French cleat you made.

**10****Step ten**

Fill your storage up with all of your paints and enjoy!
