Materials

Wood Products

1   1x6 Board , 1x6x6

1   1x3 Board , 1x3x6

Hardware & Supplies

3   Purse/Coat Hooks

2   Picture Hanging Hardware

1   Screwdriver

1   Stain Or Paint

1   Speed Square

3   1 1/4" Pocket Hole Screws

Cut List & Parts

1 Back, 1x6x6 Board , 18" Long

1 Top, 1x3x6 Board , 18" Long

# Directions

1 **Cut Wood**

Cut boards for back and top of purse rack to listed dimensions (or modify if you want it to be longer).

2 **Drill Pocket Holes**
Drill 3 pocket holes along one side of your 1x3 board.

3 **Sand**
Sand everything smooth.

4 **Attach Top and Side**

Attach your 1x3 board to your 1x6 board using 1 1/4" pocket hole screws.
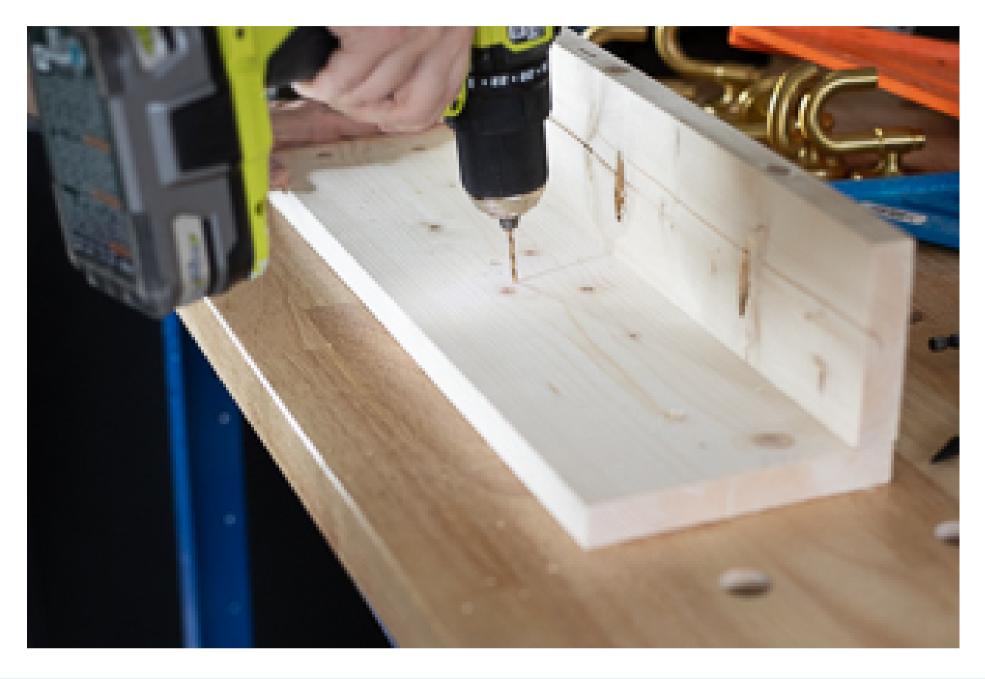

5   Drill Holes for Hooks

Measure, mark, and drill holes for your purse hooks. I found it helpful to use a speed square to make sure my holes would be straight and level.
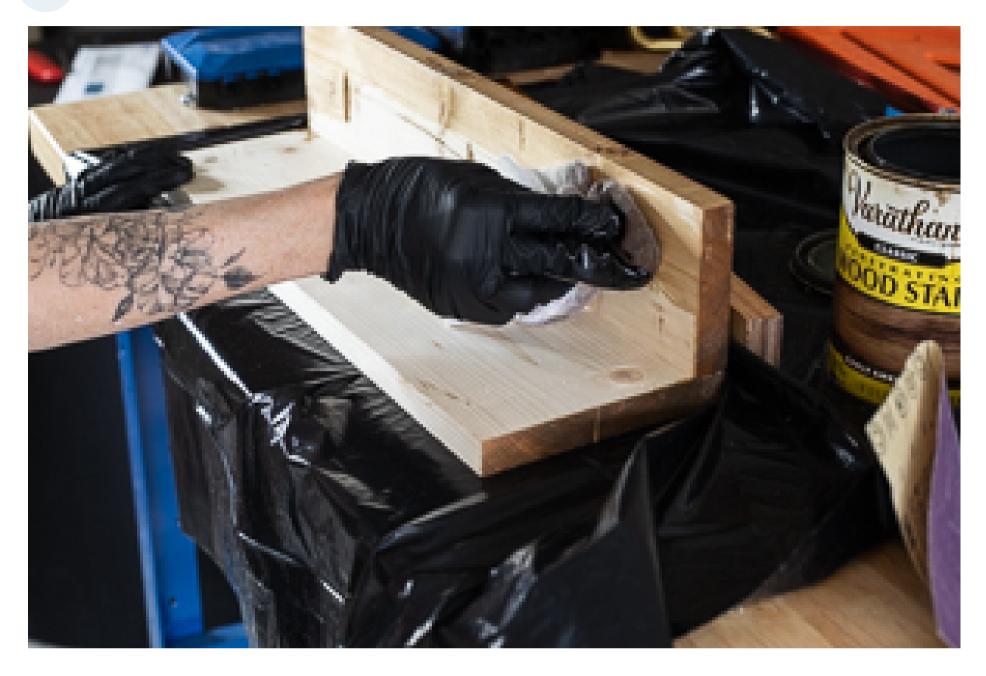

6 Stain

Stain or paint your purse rack. I used an Early American color stain.

7
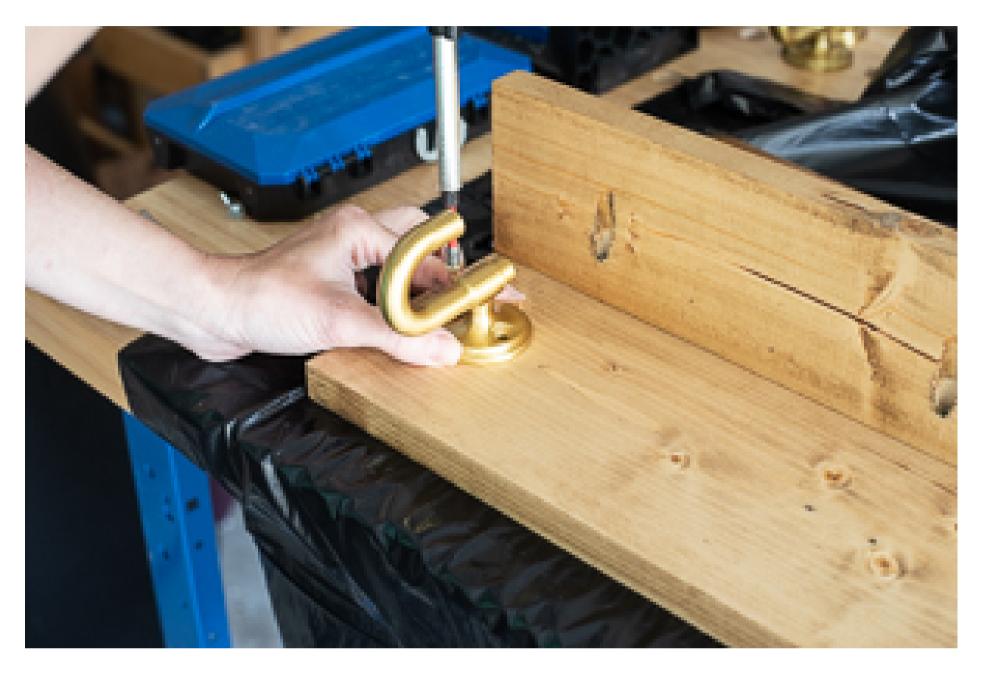

Attach Hooks

Attach hooks. I used the screws that came with the hooks I ordered, and ended up having to use a Dremel to trim the backs since they were too long, so I recomend purchasing shorter screws separately.
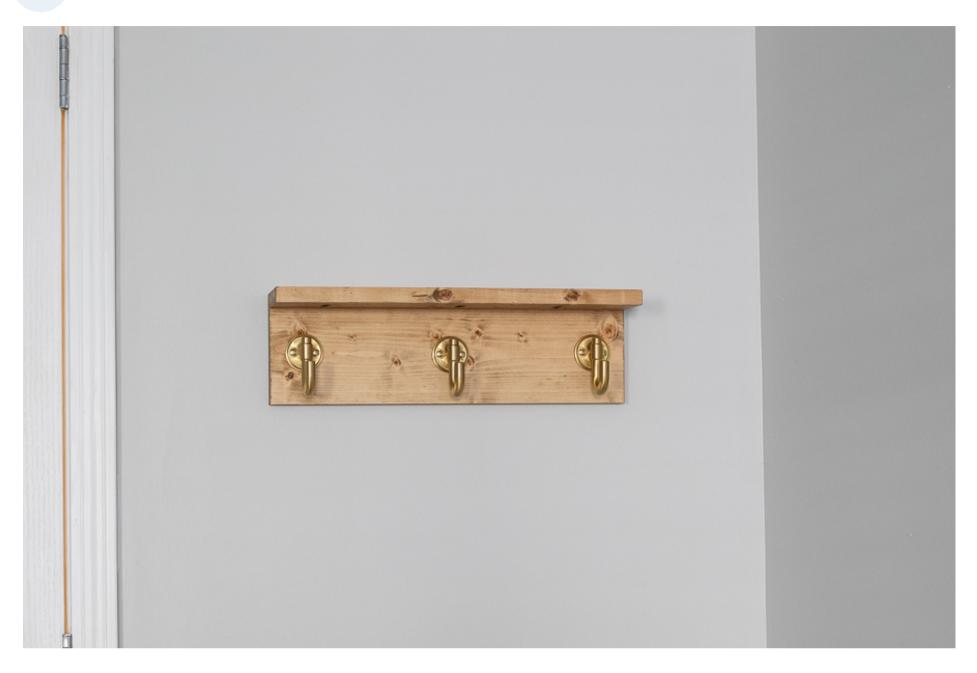

8

Hang
Use picture hanging hardware to attach your rack to the wall.
