

Couch Arm Cup Holder

Difficulty

Easy

This couch/sofa arm cup holder is perfect for any chair that doesn't have a table within arm's reach. We have lots of guests who sit in this chair with no place for their drink. This cup holder has a place for your drink, phone and remote control. Plus, it's customizable for any chair arm width.

Other Tools

Miter Saw

Drill (cordless)

Sander

Materials

Wood Products

1 Board , 1x4 , 24"

Hardware & Supplies

8 Kreg Pocket Screws

1 Wood Glue

1 Stain

1 Sealant

Cut List & Parts

2 Piece 1 And 5, 3"x4"

1 Piece 2, 5 1/2" X 4"

1 Piece 3, 6"x4"

1 Piece 4, 4"x4"

Directions

1

Make your cuts

Using a 4" wide piece of lumber, make the following length cuts to create five pieces named, aptly, pieces 1-5:

- Piece 1- 3"
- Piece 2- 5 1/2" (this piece is adjustable for your size chair. Make the length what you need to span the arm of your chair)
- Piece 3- 6"
- Piece 4- 4"
- Piece 5- 3"

2

Drill pocket holes

Drill pocket holes into the following pieces on 4" long sides:

- Piece 1- two holes on the same side
- Piece 2- no holes
- Piece 3- two holes on the same side
- Piece 4- two holes on both sides
- Piece 5- no holes

3**Create the cup holder**

Attach Piece 1 and Piece 3 to the underside of Piece 2 with the pocket holes both facing in.

4**Create the accessories holder**

Attach Piece 4 to the bottom outside edge of Piece 3 and to the bottom inside edge of Piece 5 with the pocket holes facing down.

5**Sand, Stain and Seal**

Sand everything down, rounding off all the edges. Then choose your stain and stain the whole project. Don't forget to seal it, since any condensation from a beverage will damage unsealed wood.

6**Hang on your couch**

Hang your couch arm cup holder over the arm of your chair with Piece 2 over the top of the arm.
