Directions

1

Step 1

Cut the table top planks and drill 3/4" pocket holes, as shown on the cut list. Attach the planks together with 1 1/4" pocket hole screws.

2

Step 2

Measure and cut the breadboards to size. Attach them to the ends of the planks with 1 1/4" pocket hole screws and wood glue.

3

Step 3

Cut the base pieces to size and drill 1 1/2" pocket holes into the angled ends of each foot. Attach the feet to the runner with 2 1/2" pocket hole screws and wood glue. Build two of these bases.

4

Step 4

Cut the legs to size and attach them to the top base with 2 1/2" wood screws from the top of the base and into the legs. The pocket holes should face up.

5

Step 5

Flip the base over and attach the bottom base with wood glue and 2 1/2" wood screws from the bottom of the bottom base and into the legs. The pocket holes should face down.

attach the legs
1 9/16" from
the end of the feet

6

Step 6

With the table top upside down, center the base on top of it. Attach the table base to the top with 2 1/2" wood screws from the top of the base and into the table top.

7

Step 7

Now it's time to sand the table down and add a finish! Make sure to share your builds with us on social media and use #shanty2chic so we can share them too!
