Squirrel Picnic Table Hanging Feeder

Difficulty

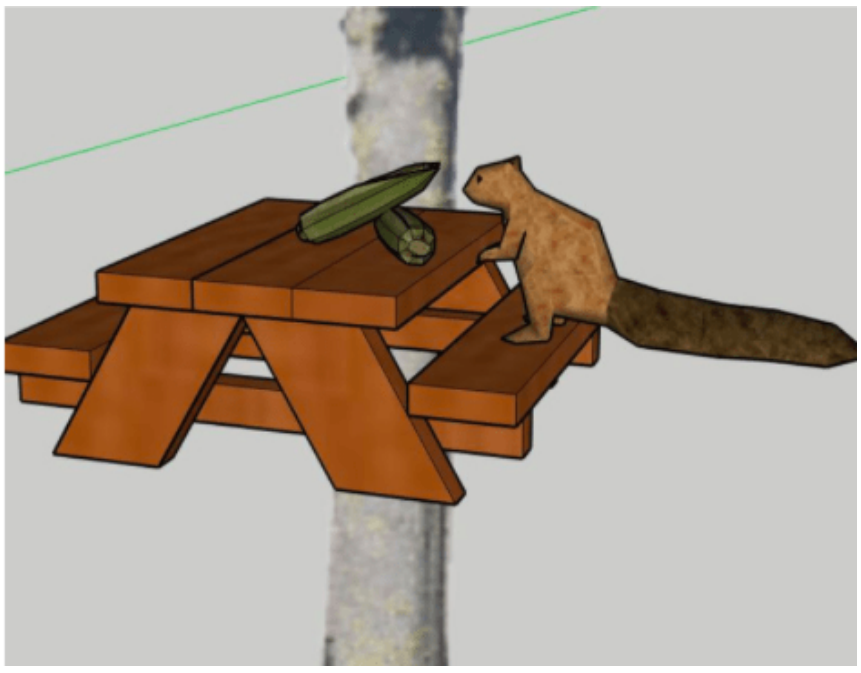

Easy

Squirrels deserve to dine in style. Here's how to make a super simple scrap wood picnic table squirrel feeder. Mount it to a tree or a fence and enjoy watching the squirrels snack all day long.

Be sure to check out my blog post for printable PDF plans with all the details!

Tools

Kreg Tools

Mobile Project Center

Other Tools

Miter Saw

Tape Measure

Nail Gun

Sander

Materials

Wood Products

1 Board , 1x3 , 96"

Hardware & Supplies

20 Nails

Cut List & Parts

3 Tops , 10"

2 Seats , 10"

4 Legs , 6"

2 Braces , 13"

Directions

1

Make cuts

Make all your cuts according to the cut list and sand.

2

Assemble legs

Assemble legs in a-frame design. You can use nail gun, nails, screws, anything to join.

3

Connect legs

Connect the legs with the two connector pieces. We used a nail gun.

4

Add top

Add the table top.

5

Stain or finish as desired

Apply your desired finish. Since this will go outside, you will need an outdoor grade stain or sealant unless you used outdoor wood. Your choice is something like treated lumber, cedar, or to seal with an outdoor sealant. Otherwise, it will rot in the elements.

6

Mount

Drill directly through the back connector piece into your tree or fence. Select a spot that you can easily see from your window!

Top with your favorite squirrel or bird treats. Expect it to take a day or two before they feel comfortable stopping by for a snack.
