Stockings Holder

Difficulty

Easy

With Christmas around the corner, it’s about time to start decorating. One of the most quintessential Christmas decorations is hanging your stockings on the mantel. Today we’re bringing you the plans on how to build a stockings holder to securely keep your stockings on the mantel!

Tools

Kreg Tools

Kreg® Pocket-Hole Jig 720

Mobile Project Center

Other Tools

Miter Saw

Table Saw

Drill (cordless)

Router

Sander

Materials

Wood Products

1 Board , 1x6 , 72"

Hardware & Supplies

12 1 1/4" Kreg Pocket Screws

1 Stain

Cut List & Parts

1 Mantel Base , 3/4" X 5 1/2" X 40"

3 Hook Piece 1 , 3/4" X 2" X 6"

3 Hook Piece 2 , 3/4" X 1" X 3"

3 Hook Piece 3 , 3/4" X 1" X 1 1/2"

Directions

1 Make All Cuts

Make all the cuts according to the cut list.

2 Add Pocket Holes to Mantel Base

Add two pocket holes on the Mantel Base in three locations: 20" (center of board) and 8" in from either side.

3 Add Pocket Holes to Hook Piece 2

Add a single pocket hole going in both directions of Hook Piece 2.

4 Build Hooks

Build the three hooks. Use the two pocket holes to attach Hook Piece 2 to the base of Hook Piece 1 and Hook Piece 3.

5 Attach Hooks

Attach the hooks to the outside of the Mantel Base where you drilled the pocket holes.

6 Router the Edge

Use a palm router around the edge of the Mantel Base, going over the top of the hooks. This will help make it look like one piece of wood.

7 Stain the Wood

Choose a nice wood stain to match your decor.
