

DIY Rustic Stand

Difficulty

Easy

This Rustic scrap wood and pipe stand is a quick and easy build, and useful for so many things! I designed this as a salt and pepper stand, because ours always goes missing- but turns out it also makes a great cake and cupcake stand, and the perfect spot to set out snacks for my family ♦

Tools

Other Tools

- Jigsaw
- Protractor
- Clamps
- Drill (cordless)
- Sander

Materials

Wood Products

- 1 Board , 1x6 , Scrap Piece
- 1 Board , 1x12 , 12"

Hardware & Supplies

- 1 3/4" X 8" Steel Pipe Nipple
- 2 3/4" Steel Floor Flanges
- 8 3/4" Screws
- 1 Finish Of Choice

Cut List & Parts

1 Base , 3/4" X 5 1/2"x 5 1/2"

1 Top , 3/4" X 11 1/4" X 11 1/4"

Directions

1

Draw Circles

First up, grab your two scrap pieces of wood and using a protractor, draw a circle on each piece. Get as close as you can to the edge without going over.

2**Cut Circles**

Now, cut the circles out with a jigsaw. I clamped mine to my work table, with half hanging over the edge, and rotated as I went.

3

Sand

Now, give those circles a sanding!

4

Apply Finish

Go ahead stain or paint however you'd like.

5**Add Hardware**

Just about done! Once your finish is dry, add one flange to each of your circles. Attach to the center using your drill and 3/4" screws.

6

Add Pipe

Go ahead and screw the pipe into each flange and you're done!
