

PLYWOOD LOUNGE CHAIR

This DIY lounge chair is made out of 3/4" plywood. This guide is meant to accompany a youtube video on the Kreg channel.

CUT THE PLYWOOD

1. Cut a 17" wide strip of 3/4" thick plywood
2. Cut the seat, back and two support braces
3. Draw and cut two of each leg type with a jigsaw
4. Drill pocket holes in the pieces

ASSEMBLE

1. Use the pocket holes to attach the Seat and back to leg type 1
2. Glue leg type 2 to inside of leg type 1
3. screw leg type 2 to seat
4. Screw the braces inbetween legs.
