Instructions for printing clock dial

1. Open the file, save it to your computer if desired.
2. Insert the art paper you wish to use in the printer. Adjust the printer for heavy stock, if necessary.
3. Click print. When the preview box opens, make sure to uncheck "fit to page," or click on "Actual Size" to ensure that the dial prints full size. Then click print.
4. Cut out the outer perimeter following the dotted lines. Don't cut the center hole until the dial is attached.
